Key messages

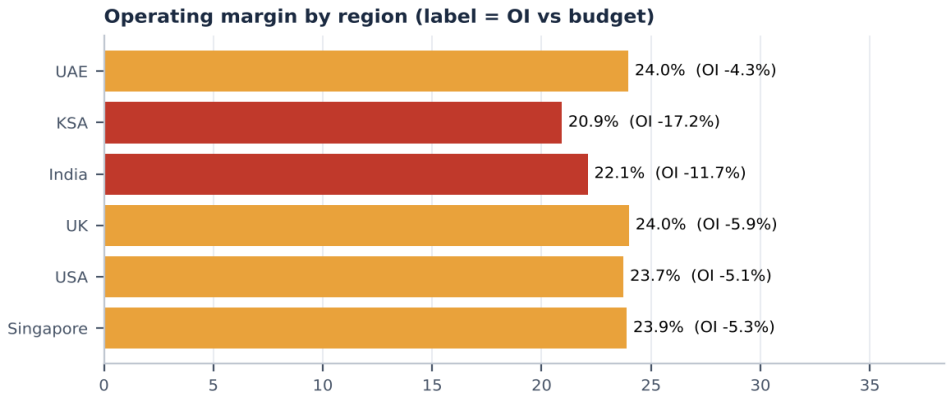

- Revenue of $171.7M is 2.3% behind budget and 7.4% up on FY25; operating margin is 23.0% (-1.5 pp vs budget).
- Operating income of $39.6M is $3.6M below budget (-8.4%), status: Off track.
- Strongest unit vs budget: Healthcare & Life Sciences (+3.6% OI vs budget). Weakest: Manufacturing & Logistics (-23.6%).
- Regional watch-point: KSA is the weakest region (-17.2% OI vs budget); strongest is UAE.
- Budget quality: weighted absolute revenue error across 30 BU-region cells is 4.7%; 104 of 360 cell-months (29%) breached the 15% adverse-OI trigger.
- Margin driver (see Bridge): volume -$0.8M, direct-cost rate -$2.3M, opex rate -$0.6M vs budget.

Risks, actions and control

Principal risks

- **Manufacturing & Logistics**: operating income -23.6% vs budget on revenue -6.1% — margin 15.6% is the lowest in the portfolio; freight/subcontract cost and pricing review required.
- **KSA** is the weakest region (OI -17.2% vs budget) — wage inflation and delivery-cost creep outpaced budget assumptions.
- Direct-cost rate drifted -$2.3M against budget — the single largest driver of the OI shortfall (volume -$767K, opex rate -$577K).
- 104 of 360 BU-region-months (29%) breached the 15% adverse-OI trigger — control drift is broad, not isolated.

Recommended actions

- Re-base FY27 budgets for Retail and Manufacturing: budgets were set above achievable revenue in each of the last two years (optimism bias).
- Launch a direct-cost recovery plan in KSA and India: rate-card uplift on renewals, utilisation target, subcontractor consolidation.
- Protect Healthcare & Life Sciences growth: it is beating budget — release incremental hiring and pre-approve capacity.
- Move to a quarterly rolling forecast with BU-region owners signing off variance commentary within 5 working days of close.

KPI dictionary

KPI	Definition
Gross margin	(Revenue − direct cost) ÷ revenue
Operating margin	(Revenue − direct cost − opex) ÷ revenue
Budget accuracy	1 − Σ|actual − budget| ÷ Σ budget (30 BU-region cells)
Adverse cell-month	Operating income >15% below budget in a BU-region-month
Volume / rate effects	Exact OI variance split: volume at budget margin + direct-cost rate + opex rate

Model integrity

ALL CHECKS PASS — 9 reconciliation checks in the workbook (record count, BU / region / heatmap totals = headline revenue, bridge ties to actual OI, monthly trend ties, revenue ties to the Integrated Financial Model).
